Focusing on **high-quality** solutions based on a clean, organized, and efficient code structures, with an emphasis on scalability and long-term maintenance.

PROJECTS

EINSTEIN'S ART WORDPRESS PROJECT

Refined and improved the Einstein's Art WordPress site by identifying and resolving visual and structural shortcomings to improve overall design consistency and usability. Improved layout and presentation to create a cleaner, more professional, and user-friendly experience.

PROPOSED PAGES FOR LOCAL BUSINESS WEBSITE

Developed a full website concept for a local logistics company, including structured page layouts, service areas, and easy navigation to boost brand visibility and user experience. Provided a distinctive logo and visual identity that emphasizes simplicity, growth, and stability, while delivering services in a neat and customer-focused interface.

PERSONAL BRAND LOGO MAKING

Created a personal brand logo using my name initials, combining them into a single, neat, and easily identifiable mark. Making the composition focus on a balanced perspective, clarity, and versatility, making a simple and good looking brand that can be used in a variety of mediums and sizes.
